

Converting Web Forms into PHP- based Web Services with `form2webservice generator`

The Tool formerly known as FaSTer

Tobias Vogel

Good for Humans, bad for Computers

17

- Web pages are intended for human use
 - Human-oriented interfaces
- Computer programs cannot access them (unless they have APIs)
- Much valuable functionality hidden
 - TinyURL, yellow pages, your application :-)

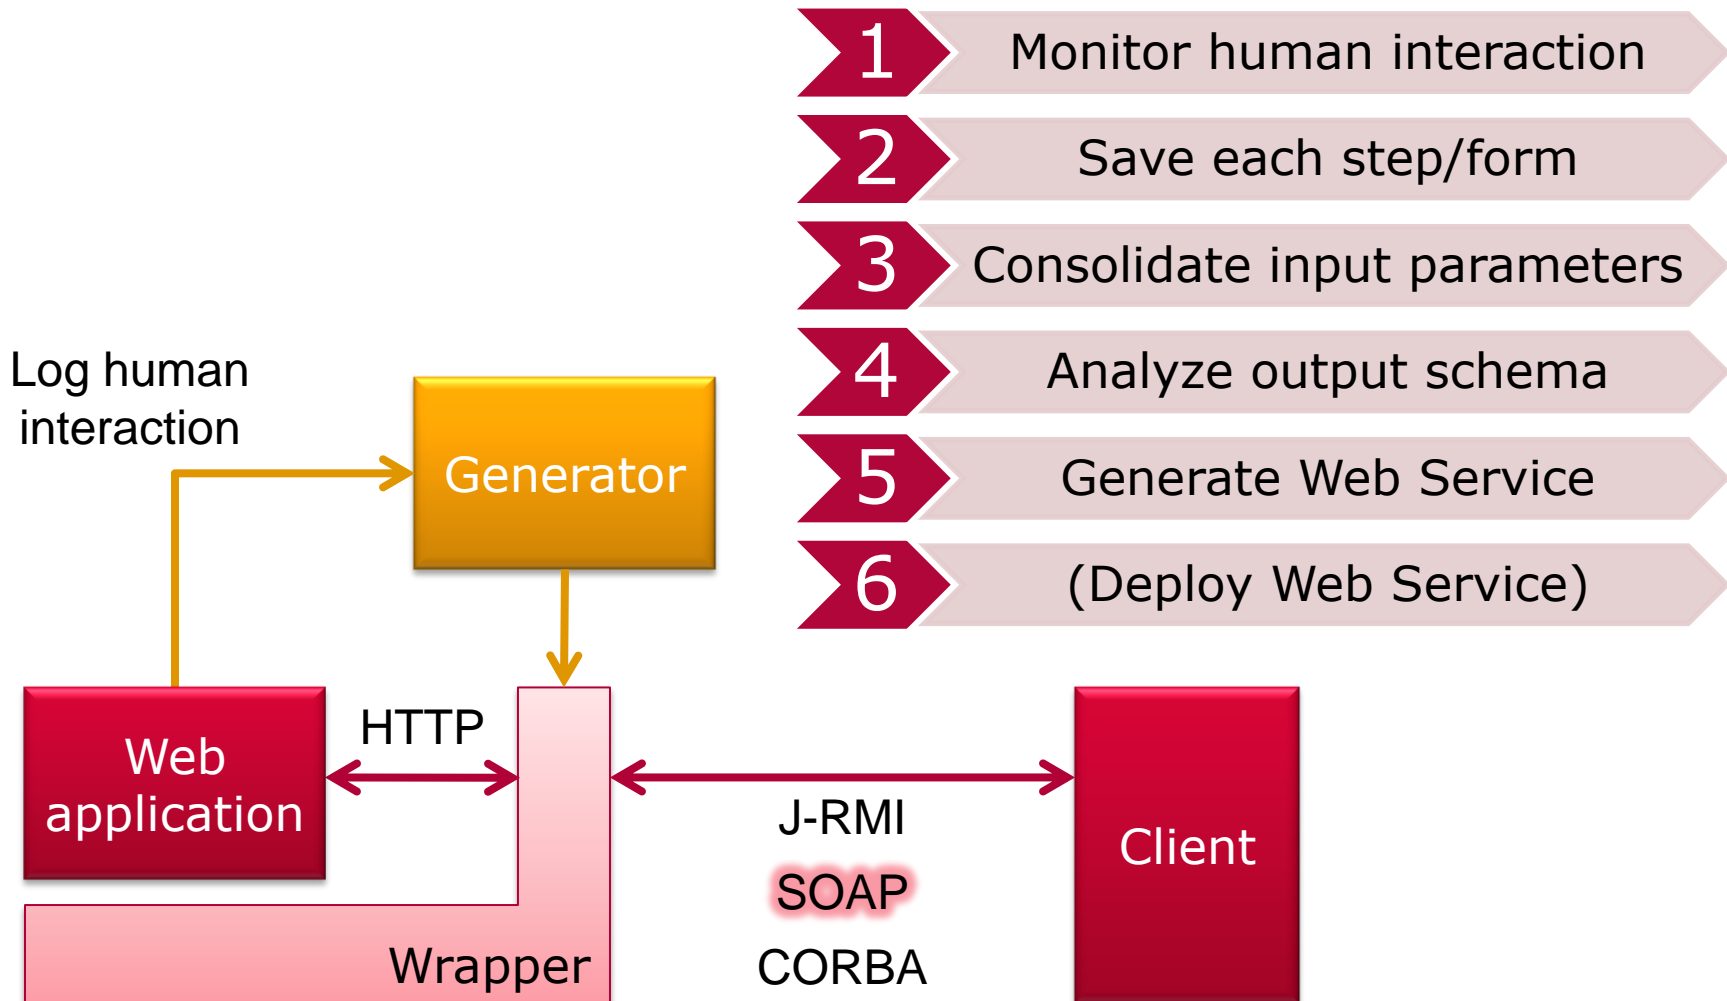

API

Create!

Encapsulation

Output

33

- XPath to specify parts
- Response types
 - simple: return direct XPath result
 - list: ,
 - table: create row objects using column descriptions

Job	Command	Runtime
backup disk	backup.bat	30 s
find temp files	find /tmp wc -l	90 s
turn off	shutdown -s	45 s

```

result1 {
  job: "backup disk",
  command: "backup.bat",
  runtime: "30 s"
},

result2 {
  job: "find temp files",
  ...

```
